Two Workshops in May!
Small Container Gardens, May 4th
The Citrus Guys, May 25th

May 4th Workshop: SMALL Container Garden- Flowering, Greens and Herbs - best practices, plant groupings and techniques - a lovely Mother's Day Gift!

How about a lovely small container garden for someone special this Mother's Day. Come to Hidden Ponds with a friend or bring your kids and join our workshop on how to plant a small container garden. We will use some of the containers from our Wild Pansy shop along with some unexpected items used as containers and we will demonstrate how you can use just a few plants or herbs to make a great garden and a lovely gift. We will review good groupings, the right soil and after the workshop you will have a chance to build your own small container garden.

Crazy Hair Day

Adorable Single Plant

Delicious Herbs

Whimsical Purse

May 25th Workshop: The Citrus Guy - Darren Sheriff, Guest Speaker. Everything you wanted to know about Citrus plants and more!

Everyone loves to have Citrus in their backyard. But how to care for it in our climate is a conundrum! Here to help us learn how to keep your Citrus happy and productive is "The Citrus Guy" himself - Darren Sheriff. Darren will review best practices and give us advise from his vast experience on cultivating citrus. [The Citrus Guy](#)
